# FinCEN Advisory

Subject:  
**Fraudulent Use  
of Canada Post  
Money Orders**

Date:  
**December 2003**

Advisory:  
**Issue 34**

*FinCEN is issuing the following Advisory concerning fraudulent use of Canada Post Money Orders.*

Canada Post has provided the Federal Bureau of Investigation (FBI) with information that its [Money Orders](#) are being counterfeited and sent to unsuspecting U.S. citizens in lieu of payment for services or products purchased through the Internet, or as part of the Nigerian and other fraudulent scams. As part of the scam, the U.S. victims are instructed to cash the fraudulent Canada Post Money Order, and then send or deliver all, or part of the proceeds from the Canada Post Money Order, to the scam artists.

Legitimate Canada Post Money Orders range in amounts \$999.99 and less. All of the counterfeit Canada Post Money Orders, reported by Canada Post, range in amounts much larger than the \$999.99 limitation, usually in the tens of thousands. The computer generated counterfeit money orders do not contain the beaver watermark on the top half of the money orders. The counterfeit money orders also contain fraudulent telephone numbers printed on the backside for verification purposes.

Canada Post advised that all Canada Post Money Orders have the following features:

- a maximum value of \$999.99 Canadian or U.S. currency;
- a Beaver-shaped watermark which is visible when held up to light; (The Beaver-shaped watermark appears on the top half of the money order.)
- the toll free number 1-800-563-0444, printed on the back of the money order, to verify its validity;
- rainbow printing; and
- the serial number, date, office number, and amount which is visible on the reverse side of the money order; however the numbers are inverted.
